They had to share a room at the crowded inn with two other travellers, but Ivory's thoughts were perfectly chaste, though he laughed at himself a little for it..foolish and the wise, all must obey them, or waste life and come to grief."judging glance..But in fact Golden wasn't thinking only about the business. He had observed something about his son that had made him not exactly set his eyes higher than the business, but glance above it from time to time, and then shut his eyes.."But she was only a girl like the others, too," Mead said, and hid her face. "A good girl," she."Ivory," said the Doorkeeper. "A lad from Havnor Great Port, whom I let in three years ago, and let out again last year, as you may recall."."She's very sick, Rush," the girl said. "I live there. The Grove - ah," he said, turning suddenly. The big, white-haired man, Kurremkarmerruk the Namer, was standing just down the path. He had not been standing there until the other mage said 'Ah." Then he snapped his jaws and stopped trying to clean his legs. "Dirt, dirt," he said, gently patting the ground he sat on. Then, very slow, very careful, he began to speak the spell of calling..Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother."."What does Thorion intend?" asked the Namer..our art when we don't know what it is?" Any festivity drew itinerant entertainers and musicians it was their living, and though uninvited they were welcomed. A tale-singer with a droning voice and a droning bagpipe was singing The Deed of the Dragonlord to a group of people under the big oak on the hilltop. When Tarry's band of harp, fife, viol, and drum took time off for a breather and a swig, a new group hopped up onto the dance floor. Crow chose to wait outside. The room was high and long, with traces of former elegance, but very old and very poor. Healers' paraphernalia and drying herbs were everywhere, though ranged in some order. Near the fine stone fireplace, where a tiny wisp of sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed nothing but bone and shadow. As Tern came close she tried to sit up and to speak. Her daughter raised her head on the pillow, and when Tern was very near he could hear her: "Wizard," she said. She stared at him with those strange eyes, as unreadable as a sheep's, he thought. Then she burst out: "You lived there? You studied there? Do you know the Archmage?" He had half-consciously dreaded that Diamond would triumph over him, asserting his power right away -- that mysterious, dangerous, incalculable power against which Golden's wealth and mastery and dignity shrank to impotence. "Nothing. But, then, it's only a thought, and I don't have the slightest intention. . . ." far and wide. "Wait. . . then what exactly do you do?" Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands. gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied. The Summoner lifted his noble, dark face and looked across the room at the pale man, but did not speak. Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark. Her breath stuck in her throat. She gasped a little for air. When she recovered herself she saw the Changer and the pale man both watching her intently. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. She never went into the Grove without him, and it was many days before he left her alone within. "I gave it up, Darkrose. I had to either do it and nothing else, or not do it. Day by day, as they talked in the old stableyard of Iria, where they had fallen into the habit of meeting, she asked him and he told her more, though reluctantly, always partially; he shielded his Masters, she thought, trying to defend the bright image of Roke, until one day he gave in to her insistence and spoke freely at last. It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in it you did not always come out into the fields again. You walked on under the trees. In the inner Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In the Old Speech, Ember said, each of those trees had its own name. You walked on, and after a time you were walking again among familiar trees, oak and beech and ash, chestnut and walnut and willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen Medra did not know, with soft reddish bark and layered foliage. You walked on, and the way through the trees was

Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. He came, with the dragon now following him, to the Old Island, Ea, the first land Segoy raised from the sea. On that sacred and powerful soil, he and Orm met.
