

## BOORMANS PATHOLOGY OF THE RAT REFERENCE AND ATLAS

"What are you doing up this early?" I asked. Janice Fenwick was an exotic dancer at a club on the Nolan had shrugged, too, and dismissed her from his mind. But that night as he lay on his bed, listening to the pounding of the drums, he thought of her again and felt a stirring in his loins..? cool million horny, sweating spectators? "Sure," I say. "Easy." But momentarily I'm not sure and I realize how tightly I'm gripping the ends of the console. Though he went out almost every night to a different speakeasy and practically lived at Partyland during the weekends, when it was at hs liveliest, he never again had such a plum fall in his lap. He didn't get within sniffing distance of bis heart's desire. Most people he met were temps, and the few Permanent License holders inclined to be friendly to him invariably turned out, like the MacKinnons, to have already disposed of their allotted endorsements. Or so they said. As the weeks went by and anxiety mounted, he began to be of the cynical but widely held opinion that many people simply removed the stickers from their licenses so it would seem they'd been used. According to Jason MacKinnon, a completely selfless endorsement, like his from Ed, was a rare phenomenon. "We might as well talk about this." They entered, and McKillian turned on the light and sat down on her mattress. Ralston was blinking, nervously tucked into his pile of blankets. Since the day of the blowout he never seemed to be warm enough..I thought about it a minute. There seemed to be no harm in Selene being here. "No, I won't tell her." .Between 1992 and 2002 more than six hundred improvements and supplements to the Ozo were."You've heard of the long-period Martian seasonal theories? Well, part of it is more than a theory. The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about

twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. We seem to have fooled these plants; they thought summer was here when the water vapor content went up around the camp."
