He had made a little heap of bits of eggshell on the ground by his knee. He arranged the white fragments into a curve, then closed it into a circle. "Yes," he said, studying his eggshells, then, scratching up the earth a bit, he neatly and delicately buried them. He dusted off his hands. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. I wish I could read what the shadows write. But all I can hear the leaves say is change, change... Everything will change but them." He looked up into the trees again with that yearning look. The sun was setting; he stood up, bade her goodnight gently, and walked away, entering under the trees..Next day he had Licky send him the boy. He looked forward to seeing him, to being kind to him, teaching him, petting him a bit as he had done yesterday. He sat down with him in the sun. Gelluk was fond of children and animals. He liked all beautiful things. It was pleasant to have a young creature about. Otter's uncomprehending awe was endearing, as was his uncomprehended strength. Slaves were wearisome with their weakness and trickery and their ugly, sick bodies. Of course Otter was his slave, but the boy need not know it. They could be teacher and prentice. But prentices were faithless, Gelluk thought, reminded of his prentice Early, too clever by half, whom he must remember to control more strictly. Father and son, that's what he and Otter could be. He would have the boy call him Father. He recalled that he had intended to find out his true name. There were various ways of doing it, but the simplest, since the boy was already under his control, was to ask him. "What is your name?" he said, watching Otter intently..chasing her burst out in front of me, a dark outline; they disappeared, I heard once more the stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly."I do not know my other name," she said. All animals were patient, but the patience of the horse kind was wonderful, being freely given. Dogs were loyal, but there was more of obedience in it. Dogs were hierarchs, dividing the world into lords and commoners. Horses were all lords. They agreed to collude. He remembered walking among the great, plumed feet of cart horses, fearless. Not a voice, not a face. It was difficult to feel uneasy in an ordinary-looking town on a sweet spring morning, but in such silence he must wonder if he was indeed in a plague-stricken place or an island under a curse. He went on. Between a house and an old plum tree was a wash line, the clothes pinned on it flapping in the sunny breeze. A cat came round the corner of a garden, no abandoned starveling but a white-pawed, well-whiskered, prosperous cat. And at last, coming down the steep little street, which here was cobbled, he heard voices..fate had shaken him. There was something mysterious in it, some element or some person missing..Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had given it to her when they married. It had come down through the generations of the descendants of Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let the Kargish king wear Morred's ring," the Queen Mother said. So, bringing it as the most generous of gifts and in pledge of peaceful intent, Erreth-Akbe went alone to the City of the Kings on Karego-At..Note on dates: Many islands have their own local count of years. The most widely used dating system in the Archipelago, which stems from the Havnorian Tale, makes the year Morred took the throne the first year of history.
