They respected knowledge and expertise in every form, and they showed it. The conversation was just getting interesting.".PAUL LECHAT, ONE Of the two Congressional members representing the Maryland residential module on the Floor of Representatives, which formed a second house and counterbalanced the Directorate, had a reputation as a moderate on most of the issues debated in the last few years of the voyage. Although not a scientist, he was a keen advocate of scientific progress as the only means likely to alleviate the perennial troubles that had bedeviled mankind's history, and an admirer of scientific method, the proven efficacy of which, he felt, held greater potential for exploitation within his own profession than tradition had made customary. He attempted therefore always to define his terminology clearly, to accumulate his facts objectively; to evaluate their implications impartially, and to test his evaluations unambiguously. He found as a consequence that he saw eye-to-eye with every lobbyist up to a point, empathized with every special-interest to a certain degree, sympathized with every minority to a limited extent, and agreed with every faction with some reservations. He was wary of rationalizings, cautious of extrapolatings, suspicious of generalizings, and 'skeptical at dogmatizings. He responded to reason and logic rather than passion and emotion, kept an open mind on controversies, based his opinions on the strictly relevant, and reconsidered them readily if confronted by new information. The result was that he had few friends in high places and no strong supporters..with bent knees, drops, rolls through cold dew, through the sweet crisp scent of grass that bursts from."First, let's recap the main points. Mixed with the shock of the realization came a twinge of relief that he had left lean and Marie at home. Explaining this was going to require some delicate handling. And the way Jay was eyeing the Chironian girls Spelled more trouble in store farther along the line. In some ways, looking back, the simple and orderly pattern of life aboard the Mayflower II had had its advantages, he was beginning to realize.. "So who did your stepfather kill?" she asked nevertheless, playing Leilani's curious game if for no reason."It certainly puts a new light on things," Lechat conceded. Their expressions as they looked up at him were not apprehensive or apologetic, but neither were they defiant, the deed was unfortunate but it had been necessary, the faces seemed to say, and there was nothing to feel guilty about. If anything, they seemed curious as to how the Terrans were going to handle the situation, as did the other Chironians looking

CHAPTER 9. Spears also adorns one wall. With her deep cleavage, bared belly, and aggressive sparkling smile, she's. "And exactly what is that supposed to mean?" Sterm demanded. "The calculations and simulations have been verified?" Sterm said, looking at Gaulitz. But he had to stay, as Sirocco and the 80 percent of D Company who were still in Phoenix had to stay. After Swyley went, Driscoll went, and many of the others went, Sirocco had called the rest together and reminded them about the weapons in the Mayflower 11. "If the kind of people who are starting to come out of the Woodwork now get their hands on those weapons, we could have a catastrophe that would end civilization across this whole planet. You've all seen what's happening back on Earth. Well, the same mentalities are here too, and they're panicking. We must keep enough of the Army together to stop anything like that if we have to." And so they had stayed..but doesn't follow..Stanislau slipped the compad into his pocket. "You don't wanna know about that," he said. "It's not very respectable..ordinary boy under the name Curtis Hammond or any other..". "What about alligators?" Micky asked her aunt..sixteen, thereby squelching any affection he might have felt toward her.. "The Chironians didn't kill Howard," Celia said. "I did." A silence descended like steel doors slamming down around the room. Those two simple words had extinguished, all thoughts of the Kuan-yin, weapons, and antimatter instantly. Every head turned disbelievingly to Celia as she sat staring ahead. Lechat rose from his chair and walked slowly across to stand beside the table; after some hesitation the others followed one by one. Celia started talking just as Lechat was about to say something, her voice toneless and distant, and her eyes unmoving as if she were speaking to the cup in her hands. "I couldn't have spent my life with a man who had closed his mind to reality. You can't know what it was like. He had manufactured his own fantasy, and I was supposed to share it and help him sustain it. It was impossible." She paused to gulp some of the coffee. "So, the thing with Sterm. Noah finished his beer. "Guys like you and the congressman used to hide behind Jesus. Sterm's eyes took on a distant light, and his breathing quickened visibly. "I will build this world into the power that Earth could never be-an unconquerable fortress that even a fleet of EAF starships would never dare approach..Bernard looked from Kath, to Colman, to Jay, and then back to Colman. He was beaten, and he knew it. But after Kath's cryptic statement, he wasn't inclined to argue too much. "Hell, it's not so bad. He doesn't need anyone to stop him from getting shot," he replied. Beside him, Jay's face dropped. Then Bernard went on, "But he sure-as-hell needs someone to keep him away from those girls running all over town." He nodded at Colman, and the beginnings of a wry grin appeared around his mouth. "Keep a good eye on him, Steve. He's crafty." He turned his head and stared resignedly at his son. "And you," he grunted. "Get home on time, and don't say anything about this to your mother." Sterm allowed a few seconds for her admission to settle. 'Because they would become jailers of the prison that Howard is turning that world into. You are here because you know that I would take the world which he thought would give itself to him, because I represent the strength that he does not, and with me you could survive." Celia looked up again, but Sterm's eyes had taken on a faraway light. "Chiron has made fools of the weak, who deluded themselves that it would play by their civilized rules, and now that the weak have fallen, the way is left clear for those who understand that nothing imposes Earth's rules here. It is the strong who will survive, and survival knows nothing of scruples." "Oh, Christ!" Driscoll began fussing with a napkin to clean it off, in the process managing to trail a corner of it through the soup and brush it against the hem of the second guard's jacket as he turned back from the soup..Stanislau touched in some commands, and immediately all references to C Company were replaced by references to D Company. Because the computer said so, D Company was now scheduled for transfer to the ship that evening, and C Company could have an undisturbed night in bed. Stanislau promptly reset the references to their original forms. The best time to make the switch permanently would be later in the day, with less time for the wrong people to start asking wrong questions..Violators of visa privileges would face permanent exclusion. "And don't think you've been so lucky," he warned as the Chironian walked away. "We've got your face taped. There'll be a next time." "At least I didn't catch you playing with yourself. Let's get out of here." Jean looked at him with a worried face. "Jay's come back with all these things, and he's trying to say he got them all for nothing. He's claiming that anyone can just help themselves. I've never heard such nonsense." Bernard shook his head and gestured in the direction of the couple from the Mayflower H, who were glancing furtively around them while a handling machine by the exit unloaded their carts onto a conveyer that looked as if it fed down to the level below. "Bernard," Kath said quietly from the console screen.. A tense silence fell. Then Jay said, "I know at least one person in the Army who we can trust." The others looked at him in surprise.. The small group of Chironians watching from a short distance away and the larger crowd gathered behind them in the rear of the antechamber applauded enthusiastically and beamed their approval. They weren't supposed to do that. It didn't preserve the fight atmosphere.. "If you wish. Sir when you talk to me." To be accepted, he has to be seen to go by the rules. If he didn't he'd become a threat to the group, and they'd reject him. And nobody can take that.
